Highlights

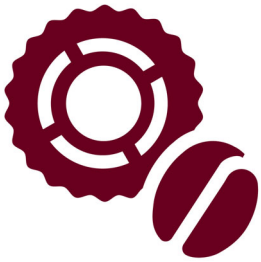
One touch espresso from beans

You can get a perfectly brewed espresso, or two at once, right in your cup from freshly ground beans by simply pushing a button and waiting a few seconds.

Integrated milk carafe

Enjoy super creamy cappuccinos at the perfect temperature, in the easiest way possible. Simply pour milk into the carafe, plug it into the machine, and select your preferred beverage. Whether it's a cappuccino or frothed milk, your drink will be served within seconds, with a splash-free flow at the ideal temperature.

100% ceramic grinders

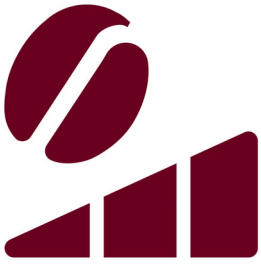


Say goodbye to the taste of burned coffee thanks to 100% ceramic grinders that are designed not to overheat the beans. Ceramic material also ensures long-lasting performance and silent operation.

Adjustable grinding settings

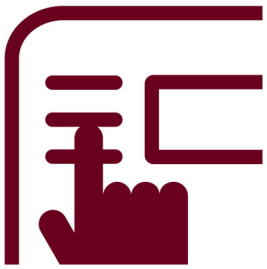
You can adjust the granularity of the grinders at 5 different levels.Choose the finest grinding for a full bodied espresso, all the way up to the coarsest for a lighter coffee, all according to your preferred taste.

Customize your coffee



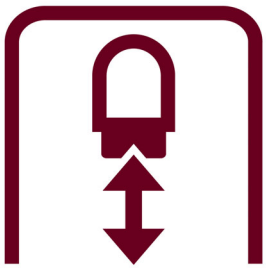
You will always get a perfect cup of coffee brewed to your personal preference thanks to the temperature, length and strength selection. Moreover, the memo function allows you to save the coffee length for each drink. Enjoy a superb coffee in your favorite cup, all at the touch of a button.

Intuitive Display



The intuitive display shows you all relevant information to easily interact with your machine and get the best performance. The buttons on the front panel offer you a selection of one-touch beverages ready at your fingertips.

Adjustable coffee spout



No matter the size of your favorite glass or cup, with one movement the coffee spout adjusts so that all the aromas are preserved and your coffee stays perfectly hot, right in your cup. At its highest position the spout can even fit a 5.9 in. (15 cm) latte macchiato glass.
